EDUCATION

California State Polytechnic University, Pomona **Expected May 2027**
Bachelor of Science in Business Administration, Finance; Minor in Mathematics; Minor in Statistics *GPA: 3.85*
Honors: FRL Department Scholarship Recipient (2026), Beta Alpha Psi Honors Society, Beta Gamma Sigma Honors Society, President's List (2024–2025)
Certifications: Bloomberg Market Concepts (BMC); SQL Intermediate (HackerRank); Machine Learning, Pandas (Kaggle)
Relevant Coursework: Applied Regression Analysis, Statistical Foundations for Business Analytics, Data Analytics in Finance, Linear Algebra, Calculus III, Investments

EXPERIENCE

Fintech Data Analytics Intern **June 2025 – August 2025**
Revolv3 — SaaS Payment Processor *Laguna Beach, CA*

- Automated customer invoicing by extracting Power BI datasets and integrating contract terms with approval volumes.
- Built Excel revenue and transaction volume forecasts, identifying 30–40% MoM growth across 3 months.
- Created Excel pivot tables calculating effective collection rates, delivering weekly KPI reports to 100+ merchants.
- Conducted trend analysis on customer transaction volume, flagging 10+ accounts with declining activity for sales.

PROJECTS & COMPETITIONS

Customer Data Integration Consulting Proposal — MISSA ITC Competition, Team Lead, 2nd Place *April 2026*

- Led 5-person team to 2nd place delivering an 18-month customer data integration proposal as lead data analyst.
- Performed full EDA in Python (pandas) on 2,500+ transactions across 363 customers and 9 data sources.
- Surfaced a 13.5x lifetime value gap between single- and multi-channel customers via segmentation analysis.
- Designed 5 Power BI dashboards spanning 40+ KPIs across executive, cross-channel, and pipeline health views.
- Architected cloud data stack (Snowflake, dbt, Segment, Fivetran, LiveRamp) with phased 18-month rollout plan.

SF Bay Environmental Decision Tool — Oracle Datathon, 2nd Place *April 2026*

- Placed 2nd at Oracle HQ building decision tool on Oracle Autonomous Database 26ai after Oracle AI World Summit.
- Wrote SQL views and join queries unifying 2 multi-table datasets (urban activity + environmental monitoring).
- Trained Oracle AutoML model on unified tables to predict water, air, and conservation scores for Bay locations.
- Built color-coded APEX map interface surfacing live ML predictions on click for any location in the Bay Area.

Full-Stack DCF Valuation Platform — Personal Project *November 2025 – Present*

- Built ETL pipeline ingesting SEC EDGAR 10-K/10-Q filings and yfinance market data into PostgreSQL for 500 equities.
- Engineered async FastAPI backend with SSE streaming and WebSocket price ticks; React/TypeScript/Vite frontend.
- Designed Postgres schema with caching layer and custom DCF engine handling financials/REITs and NaN edge cases.
- Implemented 10,000-path Monte Carlo simulation and WACC × growth sensitivity heatmaps via Recharts visualizations.

Healthcare Budget Optimization Model — Data Never Dies Datathon, 2nd Place *March 2026*

- Built Random Forest regressor (400 trees) on healthcare data across 20 countries and 24 years to predict system strain.
- Engineered weighted Strain Index combining 3 pillars (burden, capacity gap, affordability gap) to score country need.
- Designed greedy ROI optimizer deploying \$100M across 81 investment decisions to maximize strain reduction per dollar.

LEADERSHIP & ACTIVITIES

Treasurer **November 2025 – Present**
Bronco Investment Club, Cal Poly Pomona *Pomona, CA*

- Secured \$3,400 in semester funding by building detailed expense projections and presenting to the executive board.
- Led revision of 5+ line-item budget proposal in Excel, coordinating with club president and ASI Treasurer.
- Directed fundraising efforts that secured supplemental funding beyond the initial semester allocation.

Vice President **2026 – 2027**
CPP Pickleball Club *Pomona, CA*

SKILLS

Languages & Databases: SQL, PostgreSQL, Python (pandas, NumPy, scikit-learn, matplotlib), Excel (VLOOKUP, Pivot Tables)
Visualization & BI: Power BI, Streamlit, Metabase, Oracle APEX
Analytics: ETL, exploratory data analysis, regression modeling, dashboards, segmentation, statistical analysis
Interests: Sports analytics, basketball, snowboarding, pickleball
